Bar prices have been standardised across our fleet and are in line with prices on land at Hotels and restaurants of a similar standard for the same products. Your Crew are responsible for the day to day running of the bar so please do tell them if you have any specific requests and they will source and buy them in for you. Certain drinks such as Cider and Guinness may not always be available, but the Crew will do their best to find a supplier when requested. Please ensure that you check your bar bill frequently and let your Captain know right away if you would like to query any of the figures. The bar is a 'for profit' entity but it is not meant to be prohibitive and there are no obligatory tips imposed as a percentage of the bar bill. All bar bills must be settled in cash at the end of the week in your preferred currency of choice. Where the Captain is responsible for conversions, he will use the prevalent exchange rate of the day.

WIFI internet is £10 per device per week.
