BLUE CRUISE

Welcome to our new Blue Cruise brochure

If you are thinking of booking your first ever Gulet cruise then do not hesitate. This unique holiday experience affords a harmonious balance of luxury, service, nature, history, and Mediterranean dining - as our many repeat clients and their recommended friends can testify.

Since we began our family business over 25 years ago we have been proud pioneers in our field, aiming to offer a greater variety of Gulet choices to our discerning guests and those they recommend us to. With over sixty percent repeat business we are proud to be the best-known secret in luxury Turkey holidays and Gulet charter, and invite you all to try this truly niche holiday concept whatever your budget or party size.

We offer a range of standard economy Gulets, luxury air-conditioned Gulets, and Deluxe yachts for those seeking the very best in top-end cruising, and due to popular demand, we have recently expanded our Croatian fleet for a wider choice of charter options in the Adriatic. Although still only available for private hire, our fleet of Croatian-flagged Gulets now also include some budget options for smaller groups. For shared cruising we invite you all to join us in Turkey.

The home of Gulet cruising will of course always be the Aegean from where this concept began, but we are more than excited at the growth of this very particular Turkish export into new territories across the Mediterranean. As a family, our years of personal experience and passion for Gulet cruising has enabled us to select

a skilled and knowledgeable team who are familiar with our fleet and have first-hand experience of life on deck from the time of creation in the shipyards to the maiden voyages on the sea.

Again, we have compiled a selection of our favourite hotels on the Turquoise coast to welcome 'Cruise and Stay' or 'Accommodation only' guests on land at Marmaris, Icmeler, Bodrum, Turunc, Bozburun Selimiye, Dalyan, Fethiye, Kas, or Kalkan. Short breaks to the magical city of Istanbul or mesmerising Cappadocia can be combined with Gulet cruise to provide Tailor-made holidays for the discerning traveller. Those only interested in beach holidays should read pages 66 onwards.

As a specialist company unconcerned with the mass market we can afford to be more selective when it comes to our Gulets and Hotels. Each of our properties has been carefully chosen and has something special to offer, however not all properties will suit all people and some standards may vary. If you feel unsure about whether a particular holiday is suitable for you after reading our brochure, please do not hesitate to ask our friendly staff who are always ready to answer any of your questions. Blue Cruise is a fully bonded tour operating company. The air holidays and flights in this brochure are ATOL protected by the Civil Aviation Authority. Our ATOL number is ATOL 4171.

Blue Cruise Luxury Gulets

Blue Cruise's specially designed hand-crafted Gulets provide for every comfort of modern travellers while not compromising on the charm, efficiency and magnificence of more traditional boats. Whether your party requires a 25-metre standard Gulet or a 36-metre Deluxe Mega Yacht we can offer you a range of options to consider.

Each of Blue Cruise's Gulets were hand-crafted in Turkey and took over a year to build. They boast the finest quality mahogany and teak, and come in a variety of sizes and standards, affording guests the luxury of choice. Whether you want to cruise in Croatia or in Turkey our small but experienced team can tailor-make the experience and will happily share a range of options for you to consider with detailed technical specifications and photos of each Gulet.

No two Gulets are the same and are each unique in their character and style but each of our Gulets are staffed by an experienced crew that is personally known to us meaning you can relax and let the on-board team take the strain.

All Gulets are fully crewed, lead by a non-native English-speaking Skipper. Gulets have their own on-board Chef and up to 5 other seamen (size of Gulet dependent) who are also your on-call waiters.

Below deck, every care has been taken to provide the highest level of comfort and luxury. Every cabin has air conditioning (excludes standard Gulets) operating after lunch and for much of the evening when the weather is hot. Please note that the air-conditioning does not run all night except aboard many of the Deluxe Gulets which are available for private hire only. Every cabin has an en-suite shower/WC,

a wardrobe, as well as hot and cold running water. Standard Gulets are more economical and though more basic in their amenities they are perfectly clean and comfortable for families and groups on a budget.

Gulets are fitted with electric 220-volt power points for hair-dryers and shavers (bathroom towels and hair-dryers are provided). The spacious saloon is fitted throughout in mahogany and equipped with telephone, TV, and an ipod dock enabled stereo system as well as a fully stocked bar. At 28-42 metres in length there is plenty of space on deck for you to sunbathe, relax under awnings with a nice cool drink or enjoy the comfort and style of eating outside around the dining table on the aft deck.

Blue Cruise's luxury Gulets are also equipped with a large deep freeze, storing high quality meats and fish. Fruit and vegetables are bought fresh locally during the cruise. What better way to end a long day touring the Mediterranean and enjoying the wonders of the sea than settling down on the aft deck to a perfect meal washed down with a few cold beers or perfectly chilled wine.

There's no need to bring loads of luggage, shoes aren't allowed on deck and its warm enough for shorts and T-shirts most of the time. Bath towels are provided although some Gulets may ask you to bring towels for sunbathing.

Life on board usually involves 2-3 hours cruising along the coastline coupled with a stay at anchor in one of the many bays of the Mediterranean. Here you can relax on deck, explore the many historic sites and ancient cities or enjoy the delights of water sports.

THE 'BLUE CRUISE' CONCEPT IS A NEVER-ENDING PARADISE OF NEW DISCOVERIES SO EVEN IF YOU'VE VISITED THE MEDITERRANEAN BEFORE WHY NOT GET A FEW FRIENDS TOGETHER AND HIRE ONE OF OUR GULETS FOR A ONE OR TWO-WEEK CRUISE.

This time you set the destination and our crew will be happy to follow your itinerary. Decisions on where to anchor and when to cruise at sail will be left to the discretion of the Captain taking into account the weather conditions and other prevailing circumstances.

Testimonials

We had an incredible family trip. 8 adults and 7 children under the age of 10 years old. The crew were phenomenal with every aspect of the cruise. Food was excellent, service was impeccable and we wanted for nothing. We were able to choose our daily journey and movements which meant we could be flexible to accommodate what everyone wanted from the holiday. On top of it the crew were simply amazing with the kids, our 4 year old was absolutely infatuated by the crew and spent most of his day following them around the Gullet. Holiday to remember and to be repeated.

Wayne

Best holiday ever!!!!

What can I say...this was our best holiday ever and everything ... the crew, the service, the food, the gulet itself...exceeded our expectations. I now understand why people can do this over and over again and I do hope this was not our last experience on the wonderful Lycean Dream with Captain Veysel and his crew.

Helen

Spending a week on the Lycian Queen has been the most incredible experience. The captain took us to many stunning quiet and beautiful spots, where we snorkelled, swam, kayaked and drank in the most stunning nature. The crew were beyond helpful, looking after our every need with very faultless care and warmth. And Ali the cook spoilt us with his delicious food, catering for vegetarians, pescatarians, and carnivores alike, unfazed by the different requirements and every family member thrilled with the delicious fresh and tasty food he served us. Gratitude!The boat itself is absolutely stunning!

Dominique

We have not long returned from an amazing holiday aboard the beautiful Gulet Blue Cruise. We were very well looked after by Captain Ali and Sulamein and the rest of the crew.

The food was amazing, the company was excellent. Many thanks to Ash who kept in contact throughout the booking process. He was very helpful and answered all my questions speedily and thoroughly.

I highly recommend Blue Cruise to anyone who would like to take a holiday of this type. We had such a relaxing time, swimming, kayaking, sightseeing, sunbathing.

Thank you Blue Cruise, it was brilliant.

Nicky

Three families - 6 parents and 6 children between 7 & 10 spent a fabulous 7 days on Lycian Dream. The crew were truly excellent and nothing was too much trouble. The boat is perfect with lots of space on deck and below.

Food.. Great quality, variety and quantity combined with perfect service from the ever attentive crew.

We've travelled a fair bit and this was the best family holiday we've ever had and was a joy to share it with good friends against the backdrop of azure Turkish sea and historical sites. Excellent all round...

The Tour Programme

If you want to take a whole Gulet for a family or a group of friends, Blue Cruise can offer you the opportunity to book your own private Gulet and help plan your own itinerary. Cruise itineraries are given as a general guide only and may have to be changed without prior notice and are dependent on weather and docking conditions. The captain has the final say.

You will be advised prior to your departure from the UK of your arrival and departure ports which would either be Marmaris or Göcek.

Full board is included in all Gulet cruises and meals on board are exceptionally good, consisting of a variety of fresh salads, fruits, grilled meats, local fish and Turkish specialities. Meal times will depend upon cruising schedules and the wishes of all on board. Dinner on the aft deck is usually the highlight of the day; a long leisurely meal sitting under the stars listening to the water lapping at the hull of the Gulet.

Depending on your itinerary you will set off after breakfast and visit two different places before anchoring for the night either in a small village, a lively town or in a secluded bay. Our experienced captains will find the best and safest anchorages and will keep you informed about local points of interest.

Resorts

Marmaris

Marmaris is surrounded by olive trees, scrub and leafy green pine forests, which creep up to the waters edge. The castle in the harbour was built by Süleyman the Magnificent and lies in the middle of the old quarter of the town.

Ekincik

The cove of Ekincik is a tranquil paradise of lush green forests where you lose all sense of time. A favourite stop for seafarers, from here you may take a river boat into the Dalyan river and visit the ancient Roman city of Caunos.

Dalyan – Kaunos

Travel by river boat along the reed-fringed marshes and enjoy the ancient rock tombs of Lycia. Dating back to the 4th Century BC, the temple tombs of the Carian Kings and Hellenistic city of Kaunos are a must see, as are the popular mud baths and famous turtle beach.

Manastir

Calm and shaded by an abundance of pine trees which seem to bend over and kiss the sea. Manastir Cove is an ideal place to let the sails down, drift into the water and be at one with nature. Dotted off the coastline are visible ruins called Cleopatra's Bath by local people – even though they do not actually belong to Cleopatra's time.

Tersane Adasi

Formerly called Telandria, Tersane bears witness to a former community in the ruins of two churches and 140 houses. Tersane, meaning boatyard, is said to have derived from the Byzantine era when there was a boatyard there.

Göcek

The blue green paradise of Göcek's natural harbour has long endured in the hearts of yachtsmen and lovers of the sea. Located at the northernmost point of the Fethiye bay the former village is ideally located to visit both the surrounding islands and coves.

Ölüdeniz

Meaning 'Sea of the Dead', this lagoon renowned for its coastal beauty is now closed to yachts for environmental reasons. The pine tree coated tongue of sandy beaches remains in the minds of visitors as a sight of astonishing beauty. More remarkable is the brilliant sapphire blue of the water.

Fethiye

With its 12 islands and abundance of inlets, sailing into the Bay of Fethiye is like seeing nature for the first time. Unspoiled beauty and glorious colour adorn this peaceful area and the town itself, formerly the ancient city of Telmessos, is a shopper's paradise. As well as a recently excavated theatre one can visit the Tomb of Amyntas and local museum or take a tour of the ruins at historical Kaya Koy just 8km away.

Kalkan

Formerly known as the Greek port of Kalamaki, Kalkan is particularly popular with Blue Cruise guests due to its picturesque harbour and authentic feel. Set against the backdrop of the magnificent Taurus Mountain range, Kalkan combines antiquity with a quiet yet cosmopolitan charm. Dotted with tavernas and a mix of Ottoman and Greek houses, the cobbled streets offer shoppers the delights of both traditional local handicrafts and more modern artisan wares. Close to the town are the ancient Roman theatre and Byzantine citadel at Xanthos, Temples at Letoon, and Roman gate at the ancient port of Patara.

Kas

The charming seaside resort of Kas nestles at the foot of beautiful mountains and is surrounded by the clear Aegean. Well known for its shops and back streets where you can find anything from carpets to clothing, Kas' traditional Ottoman houses hug the winding cobbled streets with their numerous bars, cafés, and restaurants.

Kekova - Kale

The heavenly island of Kekova and villages of Kale and Ucagiz are considered by some to be the most beautiful in all of Turkey with the mesmerising sunken city accessible only by boat and classical towns of Simena and Teimussa nearby. A specially protected area since 1990 Kale can only be visited by boat and the views from the top of the hill by the Byzantine fortress are truly breathtaking.

Myra

The ancient city of Myra was once the capital of Lycia and is famed for its superb ancient theatre. And plethora of rock cut tombs. Known worldwide as the birthplace of St Nicholas, visitors can explore the fascinating church just 20 minutes by bus from Ucagizlar.

Resorts

Bodrum

Home to one of the ancient wonders of the world, Bodrum (formerly Halicarnassus) was once the Capital of the Hecatomnid King Mausolus whose wife built the famed Mausoleum in his honour, the remains of which can still be visited today. This bustling town is dominated by a 15th Century Crusader castle built by the Saint Jean Knights of Rhodes in the harbour, and is famed for its winding streets and vibrant nightlife.

Knidos

Originally founded as a spartan colony in 700 BC, ancient Knidos was known for its mariners, artists, philosophers and engineers. The original settlement was situated near what is now Datça but moved to its present location 75km from Marmaris in 540 BC during the Persian invasions and was once home to the first naked marble statue of Aphrodite. Traces of many more ancient monuments still exist in Knidos including the "Altar of the Dancing Girls" and the temple of Apollo Karneios.

Datça

On the Datça peninsula stands the ancient Carian City of Knidos, described by Strabo as "a city that was built for the most beautiful of goddesses, Aphrodite, on the most beautiful peninsulas". Famous as a centre of art and culture in the 4th century B.C, the city had two harbours: one on the Aegean and the other on Mediterranean. The town of Datça has become a popular stopover for yachtsmen, and offers many colourful seafood restaurants, tavernas, and boutiques

Çiftlik

A tranquil stop between Serçe and Marmaris, the clear blue-green waters of Çiftlik are a tranquil heaven.

Turunç

Turunç is a natural harbour that opens out into a wide expanse of spectacular blue water. This town is small and friendly and retains its traditional charm while offering visitors all of the comforts of modernity.

Cleopatra's Beach

The three islands located in the Bay of Gokova are known locally as the Sehir islands and one in particular is famed for its white sand, purportedly brought from Egypt by the infamous Queen Cleopatra. According to legend Cleopatra visited the island and lamented the lack of sand. Upon hearing this, her lover Antonius ordered the sand to be brought from Africa where it remains today. Visitors here can drop anchor, swim, and enjoy the golden sand.

Hisaronu

The Gulf of Hisaronu is home to the peaceful Keci Buku Bay with its marina rich in natural beauty. Surrounded by forest clad mountains visitors enjoy Kizkumu (the sunken pier) and natural sand formation.

Bozburun

The Bozburun Peninsula is one of Turkey's most picturesque and peaceful hidden gems, famed as one of the country's best Gulet building centres and home to many spectacular sheltered bays. The town itself has a small harbour dotted with tavernas and boutiques, and the local honey is world renowned along with locally produced figs and lavender.

Loryma/Bozukkale

The harbour at Loryma or Bozukkale is overlooked by one of the finest examples of Hellenistic forts in the ancient world and is thought to have been built by the Rhodians in the fourth century BC.

Selimiye/Orhaniye

Surrounded by rolling pine clad hills, Selimiye are two charming seaside villages virtually unspoilt by international tourism and with only a few restaurants and bars along their respective sea front promenades. Both found in the popular Hisaronu Bay area, they are famed for their fragrant herbs and almonds.

Rhodes - Greece

The biggest island in the Dodecanese Archipelago, Rhodes is the Capital of the island group with a bustling town centre set both within the walls and outside of one of the most spectacular Crusader Castles that remain on the Aegean coast. Built by the Knights of Saint John, the fort is one of the finest examples of Medieval architecture which combined with the island's Byzantine churches, leafy promenades, and picturesque harbour make Rhodes one of the most popular islands in Greece.

Symi - Greece

Symi has one of the most beautiful harbours in all of Greece with a tier of colourful houses on either side rising above the main sea front. Some of these houses are white washed, some pastel yellow, but virtually all have Neo-Classical pediments reminding us that 100 years ago this was one the most prosperous islands in Greece. With a traditional charm and classically Greek feel, Symi is truly an unspoiled island of romance.

Gulet Cruising

Saray in Turkish means "Palace" and the name is well chosen due to the architecture of the Hotel which is typically Ottoman in character. There are 48 air-conditioned rooms, 14 of which are family suites each decorated and furnished in luxurious style with a small balcony, minibar, tea/coffee making facilities, safe box, TV, and en-suite bath and shower.

The family suites have a separate bedroom and living room with double sofa bed and a TV area for the children. They also have a jacuzzi bath for a little added luxury and are extremely stylish in their furnishings.

Guests can dine in the a la carte restaurant with Turkish, French, and Italian styles of cuisine, and there are further choices to eat and drink in either the patisserie and cafe, the cigar bar, or the Iskele bar set to the side of the marina. Each morning breakfast is served on the rooftop terrace which is a lovely spot to enjoy the scenery with an aperitif in the evenings too.

A day at the Ece Saray can be spent by the large swimming pool, jacuzzi section, and poolside bar. There is also a spa, wellness centre, fully equipped fitness room, sauna and Turkish bath.

The Hotel is also conveniently placed, just 25 minutes by taxi from the famous beach at Oludeniz or the Unesco World Heritage 'ghost town' site at Kayakoy.

Special interest: Cappadocia

Cappadocia is one of the world's most ancient inhabited regions and is also one of the most enchanting. Subterranean cities, cave houses, tunnels and fairy chimneys are dotted throughout this beautiful, wild landscape which is a paradise for archaeologists and travellers alike.

The Hittites dominated Cappadocia for many years and were then followed by the early Christians who fled Roman rule and persecution in the first century AD. It was the Christians who built into this local rock, forging a labyrinth of tunnels and churches where they could hide from their Imperial Masters. These churches can still be visited today and with over 400 in the Goreme Valley alone, the display of skill and effort is a wonder to behold.

There are 36 subterranean cities in the area - still marvelled at for their ability to provide water and food for those in them. Kaymakli is perhaps most famous with its labyrinth of interconnecting tunnels and caves extending 9 storeys and 170ft below the Earth's surface. The landscape of Cappadocia was in fact formed between 30-60 million years ago when the region was a stage for fierce volcanic activity which is said to have continued for thousands of years. The region evolved as a result and the accumulation of volcanic ash slowly turned it into 'tufa', the surface of which hardened upon contact with the air. Over the centuries the plateau was eroded by rivers, earthquakes and storms which caused the breath-taking rock formation we see in Cappadocia today.

Cappadocia's extraordinary stalagmite pillars are known as "fairy chimneys". The stunning scenery, history and hospitality of the people in the region make Cappadocia one of the most charming places on our planet. Why not combine a trip to Cappadocia with an Istanbul break or with a Gulet cruise to experience a variety of treasures on offer in Turkey?

Yunak Evleri Hotel - Cappadocia

The Yunak Evleri is a combination of six cave houses with a total of 27 private cave rooms dating back to the 5th and 6th centuries AD, crowned with a 19th century Greek Mansion on the grounds.

These exceptional cave houses have been renovated and decorated with care in their own distinct style that strictly respects the local character. The decor is elegant and personalised with beautiful hand-crafted furnishings and antiques. With 27 rooms, the Yunak Evleri is small enough to be intimate, yet large enough to offer a variety of services and amenities.

The Yunak Evleri has created a peaceful balance between modern comfort and tradition. With its convenient location at the centre of Ürgüp, the Yunak Evleri Hotel is a perfect base for daily excursions throughout the Cappadocia region. Queen or Twin, Deluxe and Suite rooms available.

“The deep blue sky of southern Anatolia, it's violent sea,
light, and land, have nourished
various trees, fruits, flowers,
human beings, and civilisations.

These stories too are the
product of these heavenly hands,
mountains, grass, coasts,
